

THE ADA NATIONAL NETWORK

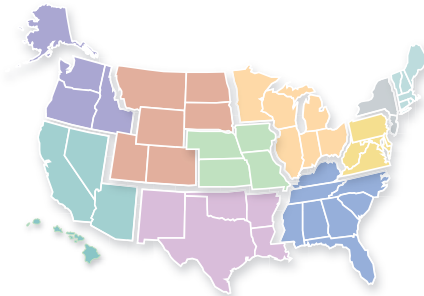

The Americans with Disabilities Act (ADA) National Network has been in existence since 1991. The ADA National Network was established to provide information, guidance and training on the Americans with Disabilities Act (ADA), tailored to meet the needs of business, government and individuals at local, state, regional and national levels.

The ADA National Network consists of ten Regional ADA Centers located throughout the United States and the ADA Knowledge Translation Center. The ten Regional ADA Centers provide ADA training, resources, and answer ADA questions in each local region. We are not an enforcement or regulatory agency, but a helpful resource supporting the ADA's mission to "make it possible for everyone with a disability to live a life of freedom and equality."

Resources available through the ADA National Network

- Answers to ADA questions via a toll-free information hotline
- ADA publications
- Web-based training and information
- Customized in-person trainings
- ADA webinars and podcasts
- National, regional and state trainings and conferences

Questions about the Americans with Disabilities Act?

Contact your Regional ADA Center. All toll-free calls are confidential.
