

THE ADA NATIONAL NETWORK

Since 1991, the ADA National Network (ADANN) has provided information, guidance and training on the Americans with Disabilities Act (ADA), tailored to meet the needs of business, government and individuals at local, state, regional and national levels.

The ADANN consists of ten Regional ADA Centers located throughout the United States. Each Center provides local assistance with understanding and applying the ADA requirements. In addition, the ADANN ADA Knowledge Translation Center coordinates national ADA projects and products. We are not an enforcement or regulatory agency, but a helpful resource supporting the ADA's mission to "make it possible for everyone with a disability to live a life of freedom and equality."

Questions about the Americans with Disabilities Act?

Contact your Regional ADA Center. All toll-free calls are confidential.
